

MODULAR

UNI M

UNI M represents the new generation of PANCONNECT's flagship product. It brings a completely redesigned and significantly simplified modularity, making it easy to configure. The power section is now always integrated into the panel, and the socket positions and 60W USB-C/A charging are designed to accommodate large laptop power supplies without any inconvenience. A wide range of connector modules, along with cable systems, including the unique motorized retractor, allows for a broad spectrum of charging and connectivity configurations.

- Configurable with connectors and cables
- Integrated doors with balanced movement
- Offers 60W USB-C PD & USB-A QC
- Available for standard and flush installation
- All-metal body with durable coating
- Wide support for socket standards

FRENCH type E SCHUKO type F UNI VERSAL ITALY type L DENMARK type K SWISS type J GB type G US type B

UNI M

Universal, highly versatile. Unique both in the arrangement of sockets in the panel and in the variability of cable systems and different module variants.

Dimensions(mm)	Weight (g)	Product package(mm / kg)
282 × 142 × 127	4400 - 5500	340 × 210 × 100 / 1,8
Number of sockets	USB-C/A 60W charging	Power cable
1 - 4	0 - 2	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Wireless charging	Number of modules	CUT-OUT (mm)
NO	0 - 2	268 × 127

COLOURS

UNI M is always offered as a fully painted panel, in the case of optional colors, ALU SILVER and ONYX BLACK are paired with SILVER and BLACK coating respectively.

 **WHITE**
white coating, finely textured surface, fitting RAL 9003

 **BLACK**
black coating, resistant smooth matt surface, fitting RAL 9005

 **SILVER**
silver metallic, resistant matt surface, fitting RAL 9006

 **ALU SILVER**
optional metallic color for the frame, doors, and socket.

 **ONYX BLACK**
optional metallic matt colour on the frame, lid and sockets

VERSATILE DESK INSTALLATION OPTIONS: SURFACE OR FLUSH MOUNTING

Selecting Surface or Flush mounting requires a corresponding frame type

SURFACE INSTALLATION

The panel has sharp corners and chamfered edge.

FLUSH INSTALLATION

The panel has round corners (r=4mm) and edges without chamfer.

TECHNICAL DETAILS

Main attributes for all sizes of panel UNI

USB-C CHARGING SPECIFICATION

PowerDelivery Protocol up to 60W

USB-A CHARGING SPECIFICATION

QuickCharge 3.0 (up to 5A)

SOCKETS

230V/10A (EU), 110V/10A (US)

POWER SUPPLY

110 - 250V, 10A

MATERIALS

dural, stainless steel, steel, ABS plastics (sockets)

INGRESS PROTECTION

IP22

AVAILABLE IN THIS VERSION FROM

2023

POWER CABLES

Panels are always supplied with integrated power cables.

 **Cable with standard plug type**
2.9 meter long cable (not available for US standard)

 **WINSTA mini**
25 cm long pigtail cable with connector (male, 2+PE, 10A)

 **WIELAND GST18i3**
25 cm long pigtail cable with connector (male, 2+PE, 10A)

PANEL MODULARITY

Configuration of UNI M is really easy. Chassis is already equipped with a charging part and modules are interchangeable.

MODULE WITH SELECTED CONNECTOR CONFIGURATION (1 module)

Modules in variants that cover various connectivity requirements. The offer includes single, double, and triple connector modules. Each module always occupies 1 position in the panel. (see page 8 for an overview of modules and ordering numbers)

BLANK MODULE (1 module)

For temporary covering of an unused position in the panel.

MOTORIZED CABLE RETRACTOR (1 module)

The unique motorized cable RETRACTOR for extending the cable up to 138 cm is primarily designed with a focus on the cable's lifespan. It smoothly and quietly extends the cable against minimal resistance. Equipped with sensors to stop in case of obstacles and smart RGB LED indication of maximum cable extension.

DOUBLE/QUADRUPLE PASS-THRU (1 / 2 modules)

Simple design grommets connected by a dual insert, allowing the passage of connectors with larger connectors (such as historical VGA, DVI). Styled for two or four cables.

MODULE WITH PASS-THRU SLOT AND FABRIC BAG + 2

A reinforced textile bag system measuring 66 cm in length, with pulleys for easy cable extraction up to a length of 96 cm. The PULL-OUT features a natural brake when the cable is placed on the table. The weight allows for adjustment according to the cable type to reduce strain.

MODULE WITH TWO DOUBLE PASS-THRU + 4

A reinforced textile bag system measuring 66 cm in length and universal pulleys (for all positions) for easy cable extraction up to a length of 96 cm. The PULL-OUT features a natural brake when the cable is placed on the table. The weight allows for adjustment according to the cable type to reduce strain.

MODULE WITH TWO DOUBLE PASS-THRU + 2

This variant combines 2 retractable cables with the PULL-OUT system and 2 pass-through cables for devices placed on the table. Only the pass-through cables can be supplemented with a PASS-THRU bag.

INSTALLATION INSTRUCTION

UNI is installed into a cut or milled opening in the tabletop.

To install the UNI panel, you will need a circular saw and a cordless drill with wood drill bits. CNC milling can be utilized during the production of tabletops.

- 1 | Mark two opposite corners and drill holes in them.
- 2 | Cut out the shape between the holes according to the CUT-OUT template in the installation manual using a circular saw.
- 3 | Fit the panel into the opening, attach the mounting frame from below, and tighten the screws according to the strength of the tabletop.
- 4 | Attach the PASS-THRU BAG or PULL-OUTS, connect AV signals, and plug the panel into the electrical outlet.

PRODUCT PACKAGE

Panel UNI M with power cable, mounting frame, mounting screws

THICKNESS OF THE DESK

10 - 40 mm (possibility up to 60 mm with custom screws, not part of a standard package)

SAFETY & RECYCLATION

PANCONNECT declares that panel UNI complies with Low voltage directive 2014/35/EU and EMC directive 2014/30/EU. Testing has been made according to EN 50491-5-1:2010 and EN 50491-5-2:2010 standards.

All products from PANCONNECT are intended for upgrade or recycling in accordance with the company's policy. Before the disposal of this panel comes up, please verify if this product can or cannot be upgraded or overhauled. If it's not possible, kindly arrange the disposal in accordance with valid EU directives.

This product belongs to WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT (WEEE) category so the disposal is possible only in accordance with this WEEE Directive 2012/19/EU. It cannot be part of the municipal waste. For more information please check www.asekol.cz | info@asekol.cz
