

MODULAR

LITE

LITE is a basic panel for modular installation available in two sizes, which covers the majority of standard needs in meeting rooms, training rooms, and conference rooms where simplicity and robustness are primarily required. It can be used as a combination of sockets and modules or as a fully socketed version. Both models can also be equipped with 60W USB-C/A charging. The modular slots can be customized with our all-metal modules with connectors, as well as retractable cables or pass-throughs for permanently extended cables.

Configurable with connectors and cables

Combination of sockets and modules

Available with USB-A QC & USB-C 60W PD

Metal body with durable painting

Focus on price and durability

Supports wide range of socket standards

LITE M

LITE M offers variability from charging only to combination of connectors and pull out cables.

Dimensions (mm)	Weight (g)	Product package (mm / kg)
227,5 × 73 × 81	1200	360 × 200 × 100 / 1,5
Number of sockets	USB-C/A 60W charging	Power cable
1 - 4	0 - 1	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Number of modules	CUT-OUT(mm)	
0 - 2	222,5 × 62	

LITE L

LITE L comes in sockets only variant or in combination of a socket, connector field and USB-C/A charging.

0 - 3	265 × 62	
Number of modules	CUT-OUT (mm)	
1 - 5	0 - 1	2.9m, ending with a plug 25cm WIELAND or WINSTA mini
Number of sockets	USB-C/A 60W charging	Power cable
279 × 73 × 81	1400	360 × 200 × 100 / 1,7
Dimensions (mm)	Weight (g)	Product package (mm / kg)

LITE

panconnect.

COLOURS

LITE is always offered as a fully painted panel, including the bottom cover and mounting frame.

WHITE
white coating, finely textured surface, fitting RAL 9003
SILVER
silver metallic, resistant matt surface, fitting RAL 9006

BLACK

black coating, resistant smooth matt surface, fitting RAL 9005

TECHNICAL DETAILS

Main attributes for all sizes of panel LITE

USB-C CHARGING SPECIFICATION

PowerDelivery protokol up to 60W

SOCKET

230V/10A (EU), 110V/10A (US)

dural, stainless steel, steel, ABS plastics (sockets)

AVAILABLE IN THIS VERSION FROM

2023

USB-A CHARGING SPECIFICATIONS

QuickCharge 3.0 (up to 5A)

POWER SUPPLY

110 - 250V, 10A

INGRESS PROTECTION

IP22

POWER CABLES

Panels are always supplied with integrated power cable.

Cable with standard plug type

2.9 meter long cable (not available for US standard)

25 cm long pigtail cable with connector (male, 2+PE, 10A)

WIELAND GST18i3

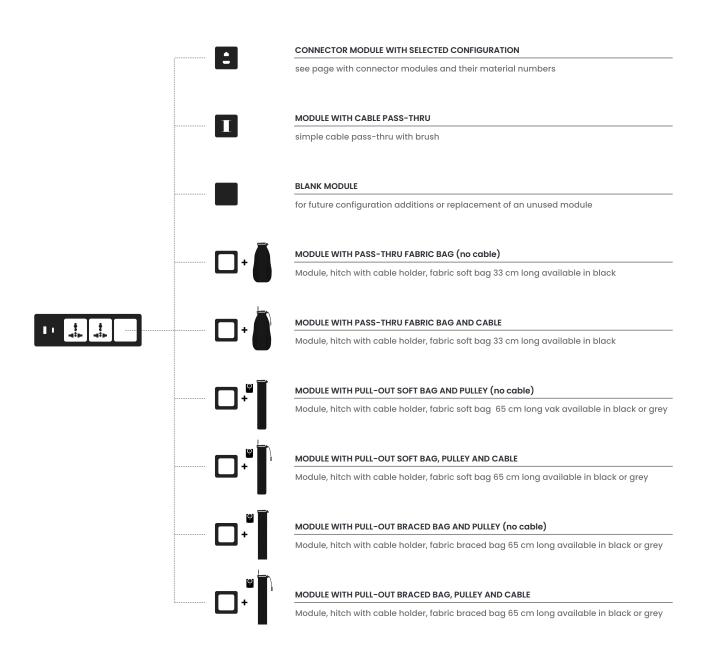

25 cm long pigtail cable with connector (male, 2+PE, 10A)

LITE

panconnect.

HOW TO CONFIGURE PANEL LITE

LITE can be configured purely using individual modules, both connector-based and cable-based. The modules are supplied separately.

CABLE SYSTEM FOR PANEL LITE

PASS-THRU FABRIC BAG

A simple sewn bag, 32 cm in length, with a metal handle for attaching to the panel module. The bag combines durable fabric with a PVC coating and flexible mesh for maximum protection of extended cables under the table.

PULL-OUT WITH SOFT BAG AND PULLEY

A textile bag system measuring 66 cm in length and a pulley for easy cable extraction up to a length of 96 cm. The PULL-OUT has a natural brake when the cable is placed on the table. The weight allows for adjustment according to the cable type to reduce strain.

PULL-OUT WITH BRACED BAG AND PULLEY

A reinforced textile bag system (with reinforced sidewalls) measuring 66 cm in length and a pulley for easy cable extraction up to a length of 96 cm. The weight allows for adjustment according to the cable type to reduce strain.

INSTALLATION INSTRUCTIONS

The installation process for both variants is the same; they only differ in the length of the cut required.

To install the LITE panel, you will need a jigsaw and a drill with wood bits. It is also possible to use CNC milling during desk production.

- 1 | Mark and drill two opposite corners.
- 2 | Use a jigsaw to cut the shape between the holes according to the CUT-OUT in the installation instructions.
- 3 | Place the panel into the hole, position the frame from the bottom part of the panel, and tighten the screws (choose screws based on the thickness of the desk).
- 4 | Attach the PASS-THRU or PULL-OUT and connect the panel into electrical outlet.

Panel LITE with power cable, mounting frame, mounting screws

THICKNESS OF THE DESK

10 - 40 mm (possibility up to 60 mm with custom screws , not part of a standard package)

INSTALLATION MANUAL

panconnect.eu/en/download/

ACCESSORIES FOR PANEL LITE

LITE can be expanded with a separate pass-through installed into the tabletop, designed in a colour scheme corresponding to the panel's design.

LITE SOUARE METAL PASS-THROUGH WITH BRUSHES

BLACK LI-PTH-B WHITE LI-PTH-W SILVER LI-PTH-S

SAFETY & RECYCLATION

PANCONNECT declares that panel MOVE complies with Low voltage directive 2014/35/EU and EMC directive 2014/30/EU. Testing has been made according to EN 50491-5-1:2010 and EN 50491-5-2:2010 standards.

All products from PANCONNECT are intended for upgrade or recyclation in accordance with the company's policy.

Before the disposal of this panel comes up, please verify if this product can or cannot be upgraded or overhauled. If it's not possible, kindly arrange the disposal in accordance with valid EU directives.

This product belongs to WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT (WEEE) category so the disposal is possible only in accordance with this WEEE Directive 2012/19/EU. It cannot be part of the municipal waste. For more information please check www.asekol.cz | info@asekol.cz
